Of the Rotary Club of Newark Morning

This week, we postponed our speaker to deal with Newark Morning Rotary club new year business.

Our newly elected president, Clinton Tymes, suspended the normal course of business and postponed our speaker this week. This was to allow our members an opportunity to have a discussion of the future of our club, examination of member concerns and ideas for solutions. We had a very respectful and engaged membership as many members chose to stand before those assembled and share their thoughts and ideas. It was a positive experience that helped us see ways forward.

It was clear that we need all members to step up and get engaged. We need the broad support of our membership at this time to achieve all that we can and improve our service to the Newark community.

Clinton suggested that we may change the type of meetings we have each month. We could present two speakers per month, having a meeting just for fellowship and one assembly meeting to conduct business. And Clinton asked us all to do some homework.

His request: please send 3 to 4 core values that you feel our club should adopt. Additionally please send an idea of what you think our club does well. These core values and strengths will be used to create a new value proposition for the Newark Morning Rotary club.

These will all be reported at our next meeting.
